GREENING CHANDIGARH ACTION PLAN 2010-2011 **Chandigarh Administration**

The highlights of 'Greening Chandigarh Action Plan' of 2010-11 are

1. Planting of 1,90,072 saplings by various Departments over places like Sukhna catchment, Wildlife Sanctuary, Reserved forests, unutilized land, barren land, Roads, Parks, Green belts, Community land, Government offices, Residential Complexes, Markets etc.
2. Free distribution of 20,000 saplings of trees, shrubs & herbs by Forest Department through its five Nurseries to Educational Institutions, Medical Institutions, Resident Welfare Associations, Non-Government Organisations etc. to be planted on public/ private lands.
3. Distribution/selling of 20,000 saplings of ornamental, flowering and fruit trees/shrubs by Horticulture Wings of Municipal Corporation and Engineering Department to institutions and individuals for planting on public/private land.
4. Seed sowing of 3.0 lakh patches on the hill tops and steep slopes of Sukhna Wild Life Sanctuary.
5. Planting of 1.0 lakh stem cuttings of Arundo-donax along choe banks to stabilize choe-banks against soil erosion in the catchment area of Sukhna Lake.
6. Massive Plantation Drive will be organized in the Schools, Colleges, Residential Colonies, Villages, Hospitals and other public and private lands as a part of 'Van Mahotsava' celebrations during the month of July-August, 2010.
7. Group planting of flowering trees at the entry points of Chandigarh and other vintage points of major roads, Reserve forests, Parks, gardens, green belts etc. This will not only provide a boost to the aesthetics of the area but also break the monotony of greenery. Flowering trees will be in bloom at different periods throughout the year.

GREENING CHANDIGARH ACTION PLAN 2010-2011

Chandigarh Administration

8. Planting of hardy, shade giving, long living and pollution abating species in the locations identified for having more pollution, particularly the roads.
9. More emphasis on planting of indigenous fruit trees like Neem, Mango, Peepal, Jamun etc. to increase avian population.
10. Replenishing and conserving the biodiversity of nature spots like Leisure Valley, Reserve forests, Sukhna Wildlife Sanctuary and Sukhna Lake by removing obnoxious weeds and planting/introduction of indigenous palatable species.
11. Establishment of Herbal Gardens in Schools, Colleges and other Institutions.
12. Ensuring tall planting [3' to 5' tall **saplings**] for better survival.
13. Post planting care by ensuring proper protection and regular watering.
14. Selection of dwarf species to be planted under the electric lines and telephone lines.
15. Removal of Lantana, parthenium and cuscuta from the city and forest areas
16. Protection of existing trees and replacement of dead, dying and diseased trees.
17. Control of pests like Mango mealy bug & stem borer on regular basis.
18. Charging ground water aquifer by minimizing surface run off.
19. Treatment of the termite infested trees as per the expert advice of the scientists of the Forests Research Institute, Dehradun
20. Awareness generation programmes will be organized to sensitize the masses for protection and conservation of flora and fauna
